## HOME BUILDERS ASSOCIATION INC.

### April is New Homes Month in Wisconsin

*Mid-Shores Home Builders Association is celebrating New Homes Month in April, just as many families begin to think about buying a home that better suits their needs.*

- With the housing market continuing to improve, consumers can take advantage of competitive home prices and low interest rates to find the perfect newly-constructed home for their families.
  - Newly-constructed homes can suit the specific requirements of today's families, from empty-nesters to multigenerational households.
  - New home floor plans are designed with modern lifestyles in mind and safely accommodate current technology and building codes.
  - A newly-constructed home can also offer energy-efficient features which can save the homeowner significant money over the long term.
