## K&J Construction and Design LLC

### Project Description

Welcome to this custom split 5 bedroom, 4-1/2 bath beautiful home with walk out lower level. The main floor is 2045 sq. ft. with a 1750 sq. ft. finished lower level, and 1480 sq. ft. 4 car attached garage. Every inch of this amazing house is being utilized to its fullest potential.

#### Exterior Features:

- > Georgia Pacific Pewter vinyl siding and shakes with white corners. Certaineed Pewter shingles in easy gray, white and black tones.
- > Alliance white vinyl windows, finished interior with drywall returns and wood sills for a more contemporary touch.

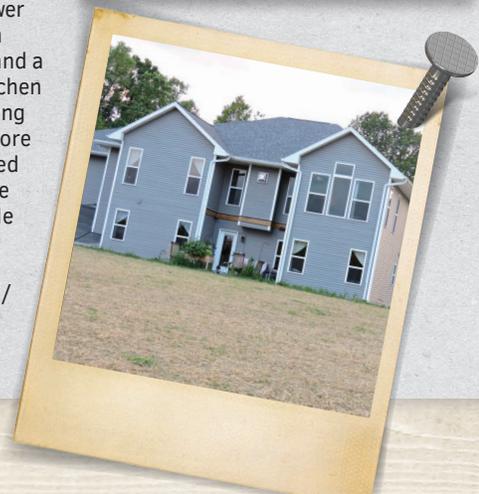

#### Main Floor Features:

This house is really 2 houses in one structure with a wide variety of uses. The large garage can accommodate one or more families. When you walk into the entry and laundry room off the garage, you have the ability to enter the main house or take an elevator to the lower level. The main level is situated as a standard three-bedroom ranch. The master suite has a decorative tray ceiling with crown molding, a large walk-in shower in the bathroom, privacy water closet, and walk-in closet. There is an open living room with a gas fireplace, finished with tile to the ceiling and a contemporary mantle, perfect to hide remotes, and wine bar. The kitchen has custom cabinetry and a large island with seating, pantry, and dining area. Off the front door entry, there is a half bath for guests and 2 more bedrooms which have decorative lighted ceilings. These are connected with a private shared, jack and jill, bathroom. There is also a staircase to the basement, which leads to a private recreation room with outside door access and exercise room which can be shared, or not, by the lower level. So, whether you chose the stairs or the elevator to the lower level, you will be in what this owner has deemed to be the guest/mother-in-law suites. A kitchenette and living room is shared by two more bedrooms, both with their own full bathrooms. The lower level also has its own full glass door to access the outside deck.
